## Tax Commissions to Be Devised Among All Township Agencies

Three townships of the Quad-City area will use substantial revenues next year under a new state law and will be required to pass on the loss to the taxpayers to finance town fund operations. It was reported today.

The loss results from legislation approved in a special session of the Illinois legislature last July providing that excess fees of town collectors be turned over to the county treasurer and that the fees be apportioned among all taxing districts of the township on the basis of their tax rates.

In the past, all excess fees of the town collector went to the township for use in the town fund. Town collectors receive a two per cent commission on all tax collections. From these fees the collector deducts his salary and office expenses and the balance represents excess fees.

The new law will have a serious effect upon the town funds of Venice, Nameoki and Chouteau townships. Anticipated income from excess fees was used in computing appropriations and tax levies passed by town electors in April this year.

Call Special Meetings

Venice township apparently will be the hardest hit by the new law. Arthur W. "Cooper" Moore, supervisor of Venice township, has called a special meeting of the town board at 7 p.m. Sept. 23 to amend the 1970-71 levy.

Moore said the board will be asked to increase the town fund from \$25,000, approved in April, to a new figure of \$75,000.

After the board approves an increase, Moore said, a special election to elect electors will be held at 8 p.m. Sept. 30 in the Venice city hall to adopt an increased tax levy for the 1970-71 year.

The law will not affect Granite City, since the township board is in constant contact with those of the city and collections are handled by the city treasurer. Therefore tax commission fees go to the city of Granite City.

Walter Sparks, supervisor of Chouteau township, said a deficit of from \$14,000 to \$16,000 is expected in the town fund of Chouteau township for the current fiscal year, but that he does not contemplate a special meeting to amend this year's tax levy. This year's 1970-71 tax levy is the basis for collection of taxes in 1971.

Sparks said the Chouteau town board expects to borrow funds to cover the deficit this year, then increase the appropriation for the 1971-72 year.

It is adopted next year to cover the loss.

Louis Whittle, town clerk of Nameoki township, said he is checking into the extent of loss that Nameoki township may expect to incur due to the new law, and expects to report on the matter to the town board later.

Under the new law, most of the excess fees will go to the school districts lying within the three townships, since they normally receive from 55% to 65% of the tax dollar. The remainder of the fees will be distributed to all tax agencies within the district on the basis of their rates.

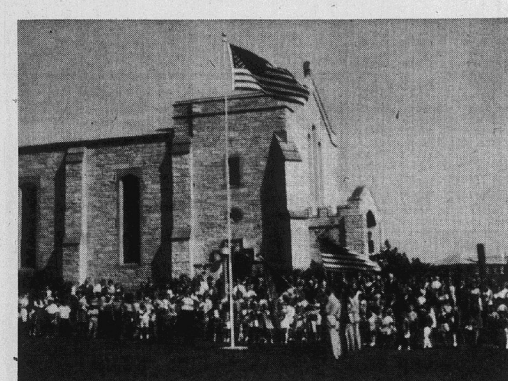

City to Air 'Abuse' Of Sick Leave Rules

Granite City council members are to meet tonight in special session with city employees and representatives of unions to which city workers belong to air a mounting controversy over city expenditures for sick leave pay.

The city council agreed to hold the meeting for a discussion of several alleged cases of abuse of the sick leave program instead of acting immediately in last week's council meeting on an ordinance that would have eliminated the first three days of sick leave pay.

The controversy developed three weeks ago when Partney told the council something should be done about cases of abuse, pointing out that he knew of an instance in which a street department employee was involved in a tavern brawl and collected sick leave for time Gregory Scott, nine pounds.

He described as abuse.

DEDICATED TO VETERANS. Due to yesterday's flagpole and American flag at St. John's United Church of Christ and St. John's Cemetery, there will be a permanent U.S. flag at the cemetery, where three war veterans are buried in a typical month.

## Cemetery Flag Ceremony Honors Veterans

With the Veterans of Foreign Wars Post 1300 color guard and firing squad participating, an American flag that once flew over the national capital was raised Sunday morning on a

new flagpole at St. John's Cemetery-St. John's United Church of Christ, 2001 N. Main St. Those in the ceremony included Oliver Jacobsmeyer, a member of the church and past

chairman of the cemetery committee, who originated the flagpole project.

Many war veterans are buried at St. John's Cemetery and there is an average of about three such funerals of veterans monthly.

Veterans' groups have placed small American flags on the graves of veterans each Memorial Day but, until yesterday, no American flag flew over the entire cemetery.

Jacobsmeyer obtained the flag through Cong. Melvin Price, and the church council bought the flagpole. William Kraus had the pole glazed and painted and Gene Sternberg Jr. prepared the base.

Andrew Sgroi, played "To the Colors." Air Force Sgt. David Wachter, the only serviceman of the congregation home on leave at present, represented members of the armed forces; the sergeant has just returned from an assignment in the Philippines.

## \$2100 Haul Made in Restaurant Burglary

### McDonald's Drive-in Safe Broken Open; 34 Crimes Reported

Burglars made a haul of more than \$2100 taken from a safe at a drive-in restaurant while 33 other cases of burglary and theft were reported to Quad-City and Madison county authorities during the week-end.

Copper gutting on homes continued to attract the attention of thieves.

Burglars gained \$2131.97 from a safe at McDonald's drive-in restaurant, 1515 Johnson road, it was reported at 4:20 a.m. today.

According to reports, a large hammer and pry bar were used to force the rear door and the safe, all of which was accomplished within 20 minutes as police had checked the building at 4 a.m.

An effort to enter from the front lobby door was unsuccessful. John Karoly, 2650 Edison avenue, reported at 1:30 a.m. Friday that he heard a thump outside his house and later noticed that a 24-foot section of copper downspout was missing from the front of his home. He said it was the second such incident in two weeks.

Ten feet of copper guttering was cut from the garage at the home of Marion E. Wilson, 1326 Twenty-seventh street, police reported at 10:10 a.m. Saturday.

A thief removed about nine feet of copper downspout from the home of William Brandt, 2800 State street, police reported at 12:15 p.m. Saturday.

House Burglary

A burglar pried open a rear window at the home of Louis Kramadas, 2425 State street, ransacked the entire house and stole \$150 in quarters and dimes and two revolvers, it was reported to police at 2:25 p.m. Saturday. The stolen guns were a .22 caliber revolver valued at \$25 and a .32 caliber pistol worth \$50, officers said.

Parker Shaw, YMCA, reported at 9:15 p.m. Thursday that his state unemployment check of \$45 was stolen from his mail box at the "Y".

Burglars broke into Volok's Tavern, 501 State street, through a rear window, and stole nine bottles of beer, according to a report to Madison police at 2:05 p.m. Saturday.

A bank book and a charge plate were stolen from the home of Mrs. Meredith Mullen, 1532 Seventh street, Madison, by a burglar who gained

## Shasta Beverages Acquires Royal Crown Cola Plant

Shasta Beverages, a division of Consolidated Foods Corp., today announced acquisition of the Royal Crown Cola processing, canning and distribution plant in Granite City.

This midwest production unit has a high speed canning line with a capacity to produce 650 cans per minute. Output from the new facility will supply Shasta customers in Illinois, Indiana, Tennessee, Eastern Missouri and Western Kentucky, the company announced.

The Granite City complex, located on Highway 3, is Shasta's twelfth production plant and the second Shasta plant to manufacture the firm's full line of flavor concentrates. Previously all flavor concentrates for Shasta's regular and diet soft drinks were produced and distributed from the company's Hayward, Calif., headquarters.

Increased sales and distribution in the eastern half of the United States made it necessary to open a second concentrate production facility to supply the company's production plants in these areas. A staff of laboratory technologists in Granite City will be retained to high quality concentrates, the company said.

## \$15,823 Bridge Tolls Being Offered to Court

James E. Crowe, a lawyer who collected \$15,823 in tolls for one day in 1969 as receiver of the Madison-owned Chain of Rocks Bridge, last week asked the St. Louis circuit court to take the money, minus expenses and his fee. The day after one money had named him receiver, another judge dismissed him.

The case involved efforts by Missouri officials to end tolls on the bridge. Madison city officials later eliminated tolls, the free Interstate 270 bridge opened nearby, and the city closed the bridge to slow the rate of its deterioration and the need for costly maintenance and repairs.

The tolls were collected during a sunny, pleasant weekend in the Quad-City area.

One of the principal attractions was the Rotary home show at the Wilson Park pavilion.

Featured were booths sponsored by more than 50 exhibitors, carnival rides, a watermelon contest, prizes, demonstrations and gifts and samples.

The booths displayed exhibits ranging from narcotics information by the Granite City police department to techniques in honey production.

Modern furnishings, appliances and services for the home were the high marks of the booths. Entertainment included performances by the Ainsel Shrine Temple band and the Checkboard Squares.

First Homecoming

Pontoon Beach held its first homecoming celebration at the Gaslight Plaza shopping center under the sponsorship of the Nameoki Youth and Adult Community Service Organization.

In addition to a beauty pageant, conducted by Charlotte Peters, St. Louis television personality, the homecoming featured a day dance for teenagers and adults, a talent show, rides, booths and stands.

The Venice-Madison Fine Arts Committee and the Polychromatic Umbrella coffee house drew numerous visitors to a day-long music festival Saturday at Lee Park.

Featured was the artistry of local groups performing jazz, folk, rock and soul music. An evening session was conducted at the coffee house in Madison. Proceeds of the event will be used for future cultural and youth activities planned by the two sponsoring groups.

Special activities extended to the Mitchell area where the Mitchell Athletic Club sponsored its annual Fall Festival at the Illinois hall park.

Entertainment was provided for all three nights by the Bill Rainey program, the Kentucky Blue Grass State and Don Brown and the Ozark Mountain trio.

All proceeds of the event will be used by the athletic club to sponsor programs for Mitchell area youngsters.

## Arrest Seven in Three Madison Burglary Cases

Harry Snell, 23, of 2014 McCasland avenue, Madison, and Joe Thomas Whit, 24, Granite City, were arrested by Madison police early yesterday morning on burglary and theft charges following a break-in at the home of Snell's neighbor, Robert Ballard, 2006 McCasland avenue.

It was the third burglary case in which Madison police reported the arrest of suspects over a 24-hour period.

A Thursday morning Madison authorities arrested Junior Puckett, 22, of 2124 Alton avenue, Cloverleaf addition, on a charge of burglary growing out of the theft of a purse from the kitchen of the home of Shirley Harshaw, 1608 Seventh street, Madison.

A second burglary charge was filed against Puckett later when police said, he was suspected of a burglary at the home of Shirley Blackwell at 802 Grand avenue.

Make More Arrests

Additional arrests in burglary cases were made by Madison officers shortly before 11 p.m. Saturday when four juveniles, 15 and 16 years old, were apprehended in an unoccupied, but furnished, house at 1631 Fifth street.

Police recovered a television set, a radio, a stereo player and an air gun which they said the boys had taken into the house with them. Juvenile Officer William Fanning said burglary and curfew charges will be filed against one of the boys.

The recovered articles had been stolen from the apartment of Shirley Arnold, 95 Garesche Homes, Fanning said. The other three boys said to be consoling him were referred to youth services.

The break-in at the Ballard home at 2006 McCasland avenue was discovered at 9 p.m. Saturday when the family returned home. Missing was a portable typewriter, a 410 gauge shotgun and a gun-cleaning kit.

Ballard told police that he and his wife had been in the house shortly after he notified authorities and saw Snell in the backyard of his home. Snell gave Ballard the missing portable typewriter and told Ballard he had found it in his backyard, officers said.

## Sorority Assists ALSAC Drive to Fight Leukemia

The Illinois chapters of the Epsilon Sigma Alpha international sorority, including the Granite City chapter, have joined Mario Thomas, ABC Television's "That Girl," in supporting the American Leukemia Society's Associated Charities (ALSAC) and the St. Jude Children's Research Hospital.

The sorority has adopted ALSAC as its state-wide project and has pledged to support the Danny Thomas Teenage March Oct. 2, 3 and 4, commonly called the march against children's leukemia.

Actually, the St. Jude Children's Research Hospital which is supported by ALSAC is doing research into several disorders which affect children, of which leukemia is only one. Others are blood disorders, types of pneumonia, hemophilia and other blood disorders, tumors and malnutrition. The hospital is treating children with these disorders from all over the world.

ALSAC was formed in 1957 when television star Danny Thomas called upon all Lebanese and Syrians to help support aid in the growth of St. Jude Hospital. Since that time, the charity has called upon all people to help in the fight against childhood disorders and to prove "man's humanity to man," does exist.

Danny Thomas' daughter, Mario, who now is star of her own television show, has accepted the position of chairman of this year's Teenage March to collect donations for the charity. The annual march is the main fund-raising drive undertaken by ALSAC and

teenagers all over the country take part.

Any child may go to St. Jude's free of charge upon referral by their physician. Even as an outpatient, the consultation of the hospital is available free of charge and all needed medication is supplied by St. Jude's.

The chairman of the Epsilon Sigma Alpha Sorority project in Granite City is Mrs. Joyce Albers, 3119 Yale drive, who also is the ALSAC area leader. For further information on the march she may be reached after 4 p.m. weekdays at 876-0644. Volunteers are needed to help make the drive a success, Mrs. Albers said.

A new legal education program for Illinois schools, jointly sponsored by Illinois Attorney General William J. Scott and State Supt. of Schools Ray Page, will be explained to teachers in 10 regional workshops to be held throughout the state this fall.

The workshops will be conducted by Page's Consumer Education Division. They will begin Sept. 28 and continue through Dec. 8, including one at SIU-SW Nov. 3.

Speakers will include Howard R. Kaufman, chief of Scott's Consumer Fraud and Protection Bureau, and Edward M. Vais, Scott's administrative assistant who is acting as the attorney general's coordinator for the legal education program.

Scott proposed the legal education program during his successful campaign for attorney general in 1968. He urged that Illinois public school students be taught their rights and responsibilities under the law in a program designed to show young people that the law protects not only their lives but also all of their individual freedoms.

With Page's cooperation, the legal education program will begin this fall with three pilot projects in schools in different parts of the state. In addition to consumer protection, the new program will deal with such subjects as criminal justice, delinquency and drug control, taxes and air and water pollution control.

## Two Men Named In Divorce Case; Seven Decrees

Two men were listed as defendants in a divorce decree issued to Mrs. Maudie Mae Waters of Venice last week by Madison county circuit court. According to the decree, she was divorced from Edward Nelson Jr., Greenwood, Miss., where they were married Sept. 2, 1950. They were separated in September of 1957. She was given custody of six minor children, and the matter of child support was reserved by the court. Desertion was charged. The decree further stipulates that she entered into a purported marriage ceremony with Carl Herman Waters on Aug. 14, 1961, in St. Louis without benefit of divorce. That marriage was voided.

#### Six Other Cases

Divorce decrees have been issued in six other Quad-City area cases. They were obtained by Richard Crouch from Madeline Crouch, both of Granite City. They were married Oct. 26, 1962, and separated last July 1. Mental cruelty was charged. Maynard Ward Hurlbut from Kathy Dunn Hurlbut, both of Granite City. #### Ballot Box Guarantee of Freedom-Powell

The freedom of the ballot box is the guarantee of all other American freedoms—freedom of speech, of faith, of the press and from want. Secretary of State Paul Powell said in a talk before the Peoria Rotary Club.

"Surveys show that the American people cherish their right to vote more than any other liberty, yet many of these same people have never been inside a polling booth," Mr. Powell said. Businessmen must keep abreast of the times if they are to operate their businesses successfully, and the operation must be carried out by persons skilled and up to date, and the same is true of government, Secretary Powell said. "You, as leaders in the business world should initiate action at every opportunity to impress upon people the necessity of voting in all elections," he advised. "Discuss the issues with your customers and friends and bring the business point of view into political discussions."

A politician may be wrong in trying to regulate or tax an area or business that he knows nothing about, but "you are equally wrong in not educating him," Mr. Powell said.

#### Alton Auxiliary Lock Closing for 20 Days

Col. Carroll N. LeTeller, District Engineer, St. Louis, has announced that the auxiliary lock at Dam 26, Alton, will be closed to navigation for a period of approximately 20 days beginning at 8 a.m. today. Col. LeTeller said the work is an element of the planned rehabilitation designed to keep the present main locks operative until new 1200-foot locks can be constructed two miles downstream. Planning and construction of the new locks is expected to require ten years.

The \$432,000 contract, largest of five involved in the \$900,000 rehabilitation program, is designed to stabilize the main lock wall.

## Park District Fall Trip To Ozarks Oct. 16-18

A special weekend excursion with accommodation priced from \$18 for single or double occupancy rooms to a maximum of \$20 for four persons sharing a room, the park official said. Further details may be obtained by calling the park office at 877-3059, he added.

Excellent response to the park district's experimental bus excursions into the Ozark area the past four autumns has prompted the weekend trip this year, according to Harold Brown, park superintendent.

"Due to the Oct. 16-18 week-end coinciding with the popular Arts and Crafts Festival at Silver Dollar City, Mo., located just a few miles from where the local excursionists will stay, accommodation is extremely limited," Brown said. He pointed out that all reservations must be called in to the Wilson Park office at 877-3059 by noon Wednesday.

Brown explained that late notice of the trip is a result of difficulty in locating adequate housing for the local excursionists. Accommodation will be provided at the Cove Motel at Kimberling City, Mo., overlooking Table Rock Lake, he said. Transportation by chartered bus will cost \$11.50 per person.

## Family Relationship Series to Be Shown

NET Playhouse will explore the drama of strained family relationships based by a tragedy in a four-part series, "Talking to a Stranger," Thursdays at 7:30 p.m. beginning Sept. 3 on public television station Channel 9.

Each interrelated but separate play recounts the events of a painful family incident from the perspective of a different member of the Stephens family. The stories of the parents, their dutiful son and their rebellious daughter lead to an understanding of the whole situation.

Written by John Hopkins, a British playwright, the four dramas collectively received an Emmy nomination in 1969. Critics, including the "London Times," applauded the series, calling it "the best television drama yet written."

A viewer's guide for "Talking to a Stranger" is available free of charge from Kete, Channel 9, 6996 Milbrook Blvd., St. Louis, Mo. 63130.

## Moist Corn Will Not Keep; State Loss Estimated

An executive of Illinois' largest grain marketing cooperative urged farmers Thursday to avoid a tendency to harvest overly-moist corn in an attempt to escape the southern leaf blight threat.

"Corn with 30% to 40% moisture content simply cannot be kept in good condition as it is stored prior to final usage," said B. L. Adomeit, vice-president and general manager of Illinois Grain Corp. He addressed IGC shareholders during the cooperative's annual meeting in Peoria.

"One of the things we are greatly concerned about is the farmer moving into his fields when the corn has a 30-40% moisture content — which in some cases has been advocated in order to improve yield per acre in view of the possible threat of this year's leaf blight problem. (As a result of the blight, some ears of corn are weakened at the base and tend to drop off.)"

**UW Experience Cited**  
"Such high moisture corn simply will not keep. We had a large taste of this in 1967 and the farmer, the country elevator and IGC paid dearly in the loss of grain which went out of condition."

"Such corn, even after it has dried, has a limited life and even with the most modern storage methods — it still will not keep. We don't want to be faced again with hot, sour, musty, damaged corn."

"Illinois has enjoyed a reputation overseas for many years of consistently having the highest quality corn."

"I do not know how some of these problems can be solved by the farmer, but the results will not be good if he moves into his fields too early and we end up with corn that goes bad on the farm, in the elevator, or on vessels bound for foreign markets."

Adomeit said that although figures are far from final, Illinois appears to be suffering more from the leaf blight than other states.

"Our latest estimates indicate that Illinois' corn crop will be down 80 to 100 million bushels, mainly in the extreme south and north. Last year's corn crop in Illinois totaled 86 million bushels."

"It looks now as if all of the other states in the primary corn belt will be down about another 100 million bushels, but this is spread over such a wide territory that it will not have a decided local effect."

**Two Hubcaps Stolen**

Two hubcaps were stolen from the 1964 auto owned by David Grenthous, 2601 Ridgedale, while it was parked at his home, police reported at 7:10 p.m. Friday. The thief also cut the battery cables and tried to hotwire the car in an attempt to start it, police said.

Guests introduced included school board members, Chamber Manager Howard Colquhoun and William F. Winter, associate editor of the Press-Record. Also presented to the new faculty members were administrators, principals and consultants. All speakers described the Granite City district as outstanding, Trimpe noting that it is one of the ten largest in Illinois. He also said that it has more than 15,000 of the 70,000 students in Madison county and 750 of the 3000 county teachers.

## Venice-Madison Fine Arts Unit Ends Season Tonight

A series of cultural programs initiated in the Quad Cities this summer by the newly-formed Venice-Madison Fine Arts Committee will conclude at 7:30 p.m. today with a "Grand Finale" presentation at Venice-Lincoln Technical Center, 300 South 4th street, Venice. The public is invited without charge.

Tonight's program will encompass a variety of entertainment, including youthful tam-bouritzans, ethnic dance troupe members, individual vocal and dance students and the entire company from Southern Illinois University—Performing Arts Training Center.

The Happy Strings Junior Tambouritzans of Granite City, sponsored by the Croatian Fraternal Union, Lodge 222, will perform several routines under the direction of Ivan and Grace Lusieic. The group recently made three appearances at the Illinois State Fair in Springfield.

Another segment of the show will feature the St. Stanislaus Polish Youth Dancers, directed by Mrs. Connie Grupas and Mrs. Hattie Munk.

Youth Dancers to Perform The youth dancers, numbering about 50 boys and girls from the Madison area, will present such dances as: "Domino Polka" (Baltic Couple Dance); "Zasial Goralie"; Polish Dance Trio; "Mantou" (Hiel-Tee Polka); "Minuel"; "Little Blacksmith" (Baltic Mixer); "Krawiaki" (Krawok Reiner); and "Masurka" (a ballet).

The talent of pupils who participated this summer in vocal and dance classes in the Venice area will be spotlighted in another portion of the program, together with popular vocal selections by Henry Rohdes of Venice, accompanied by "Chuck and Denny." Members of the SIU

forming Arts Company will provide Quad-Cities audiences the cultural series finale a diversified program, ranging from African sounds to poetry readings.

Directed by Miss Katherine Dunham, SIU center director and widely-acclaimed artist, the "SIU-PATC Company will open their production with "A Frigue," followed with African songs, dances and drum solos performed by well-known drum artists, Mor Thiam, Kine Thiam and Zakarya Diouf, all from Dakar, Senegal.

A highly-volatile dance sequence, entitled "Chaka," reflects the story of a great hero of South Africa, who succeeded in reuniting many Zulu tribes and created a Zulu empire against tremendous odds.

The Chaka story will be presented by Ural Wilson, Jackie Thompson, Rosemary Riels, Victor Farwell, Diouf and Darryl Braddick, with narration by John Brooks.

Vocal selections to be given by Fred Brooks will include "Song for My Father" and "To Young, Bright and Beautiful." Poetry readings will be offered by Ronald Tibbs and Joel Price and a classroom demonstration will conclude the SIU-PATC program.

## Hamilos Certified in New Federal Program

Hamilos Brothers Wholesale Inspected Meats, 1117 Greenwood street, Madison, has been certified as meeting the inspection standards of the federal Wholesome Meat Act, John W. Lewis, director of the Illinois Department of Agriculture, reported today.

Lewis said the plant is among the first 98 state establishments to be approved which come under the jurisdiction of the department's Division of Meat, Poultry and Livestock Inspection. "I am pleased to report this is the largest number of individually certified plants of any state in the nation," he added.

Certification of an establishment enables it to have USDA grading of meats. If desired, which would permit the business to bid on volume sales to state and federal institutions, if it cares to.

Lewis said, "We have been extremely pleased with the cooperation of the numerous slaughtering and processing plants in Illinois that come under state jurisdiction in moving toward meeting requirements of the federal Wholesome Meat Act. The certification is important to the housewife, too, as it is another assurance that she is able to obtain fresh, wholesome meat on a local basis."

A representative of the Illinois Department of Agriculture presented a framed certificate to the local plant signifying its certification.

# Three things to remember when you write your own will:

Internal Revenue Code of 1954, Chapt. 11, Sec. 2001. Rate of tax.

Arnold v. Alden, 1898, 173 Ill. 229, 50 N.E. 704.

In re Golden's will 165 Misc. 205, 300 N.Y.S. 737, 738.

Of course, there's more to remember. Lots more.

After all, a will is a highly specialized legal document. It has to be prepared in a very specific way. One minor error could tie up your entire estate instead of settling it.

That's why you need a lawyer. So, let's forget dangerous "do-it-yourself wills" and start from the beginning.

## What is a will?

A will is simply a legal document in which you provide for the distribution of your property after your death. It names the persons who will receive your estate and the portions they will receive.

Your will also names someone (called an executor) to see that the provisions of the will are carried out as you want them. The executor frequently is a trust company, bank or lawyer.

A will can help do lots of other things, too. Like providing a lifetime income for your wife or guaranteeing a college education for your children. Your lawyer will explain the many ways a will can protect your family.

## Who needs it?

Just about everybody.

You don't have to be rich to need a will, either. Wills are just as important to the man with a modest estate as they are to the wealthy executive.

If you have a family, or any relatives, you might need a will. If you own a

home, car or furniture, you may need a will. If you have a savings or checking account, you might need a will. If you own anything of value, you probably need a will.

## What happens if I don't have a will?

If you don't have a will, your property will be divided according to the laws of the state. Someone for whom you wish to provide may receive little or nothing, while someone else receives a large portion of your estate.

If you don't have a will, you cannot dictate exactly how the estate is to be handled for the best interests of your loved ones—whether it should be left outright, distributed over a period of time or placed in trust.

If you don't have a will, your estate will be handled by a court appointed administrator—someone you might not have chosen yourself.

## What does it cost?

Relatively little.

Although it depends on the length and complexity of your will, having a will is often less expensive than no will at all.

And don't forget, a carefully drawn will can often reduce some of the taxes which can affect your estate.

## What should I consider in making a will?

Only you can decide how best to dis-

tribute your estate. Some of the things you will want to consider are the age, health, sex, legal rights and needs of each potential beneficiary.

Your lawyer can advise you on the most advantageous method of distribution to save on taxes and other expenses.

## Do I need a lawyer?

Absolutely.

A will is a technical legal document. It should be prepared by a lawyer. "Do-it-yourself" wills have often been voided by the courts for minor legal mistakes.

If you don't have a lawyer, the Lawyer Referral Service of your local Bar Association can help you find one without obligation.

Just stop by and explain your needs to one of the legal counselors there. He will refer you to a qualified attorney.

## Now you know.

Chicago Title and Trust Company is not in the business of making wills. Only you and your lawyer should do that. So what's our interest?

It's just that Chicago Title and Trust Company, for more than 75 years, has served countless men and women who have named us as Executor of their wills. We know how important wills are—how important it is to have a lawyer assist you in planning for the protection of your family.

We wanted you to know, too.

## Tough Season Ahead, Vonder Haar Predicts

"Barring injuries, we'll be practicing in 'hitting the sled,' respectable," Madison head coach Al Vonder Haar said today as he summed up the Trojan's strength at this point. "The boys are really hitting," he said.

Harold Campbell, one of the five returning starters from last year's Midwestern Conference championship team, was the first man out Sunday for

practice in "hitting the sled." The first time he hit it, he broke a left on the device, Vonder Haar related.

The Trojans practiced all weekend—four hours on Saturday and two hours on Sunday, to get into shape for their opening game on Sept. 18 at O'Fallon. Drills began Aug. 26.

"We've got to get them into shape, because last year at this time we had held twice as

many practices," Vonder Haar explained. Practices are scheduled for every evening this week, with more probable during the weekend and, if necessary, on Labor Day.

With Madison schools starting early this year, it left only late afternoons available for practice.

First Three Foes Strong  
"Our toughest three games will be our first three," the head coach said.

After O'Fallon, the team will face Maplewood and will then play a home game against Highland.

Sizing up the first opponent, Vonder Haar would only say, "Tough!" Last year the Trojan's defeated O'Fallon by only one point after being behind by 12 with only five minutes left in the game.

Very few of the 85 candidates present on the opening day of practice have dropped out but trimming will begin tomorrow. Coach Vonder Haar plans to begin spending time with selected players to aid in assembling the final team.

## Collinsville Takes Championship

### Mercer Ends Schedule With 2 Baseball Wins

Mercer defeated Highland 22-9 and beat Maryville 7-2, both at Maryville, while Collinsville was clinching its seventh consecutive Inter-City Baseball League pennant at Collinsville Sunday.

Bruce Thompson of Granite City pitched a 5.0 shutout for Collinsville over East Alton. Thompson helped his own cause by hitting 4-for-4 including two RBIs. Collinsville, with one regular season game to go, Sunday at Maryville, has a 15-4 record.

Mercer's regular season is perhaps ended. Mercer could only play another regular season league game. In order to break a possible tie for second in the standings.

Mercer is certain to see action in the post-season playoffs, scheduled to begin Sept. 13.

The local aquad exploded for 16 runs in the second inning against Highland. Steve Schard collected three of the team's eight hits in the game. Jim Rains slugged a grand slam homer.

Bob Ketter knocked a grand slam homer in Mercer's sixth inning. Terry Brown hit a solo homer and Larry Corey earned credit for the pitching win.

Highland scored one run in the second, seven in the seventh and one in the eighth.

Don Rains hurled a four-hitter to beat Maryville.

Mercer opened with a three-run inning and scored twice in each of the seventh and ninth innings. Maryville scored in the sixth as losing pitcher Jim Laurenti hit a two-run homer.

## Nameoki Board Settles Issues Over Pay System

A controversy over a system to match checks for payment with bills approved by the town board was resolved Thursday night at a meeting between Harry Briggs, supervisor of Nameoki township, and members of the town board.

As a result, the board approved for payment more than \$19,000 in bills which had been held up since Aug. 1 on grounds that Town Clerk Louis Whittell had been unable to secure vouchers to determine the amounts of checks issued by Briggs in payment of town bills.

The board also agreed to approve an increase in the maximum road and bridge fund tax rate of the highway department to 16.5 cents per \$100 assessed valuation. Charles Hanks, township highway commissioner, requested the increase in the regular town board meeting last Monday, but the board deferred action pending outcome of Thursday night's recessed session.

The highway department's new fiscal year begins tomorrow and will extend through Aug. 31, 1971. It differs from the township fiscal year which is March 18 through March 14. Whittell pointed out that it was necessary to clear up the bills prior to the beginning of the highway department's new fiscal year or the amount of the outstanding bills would have to be carried over to the new appropriation.

The town board passed a resolution in early August requiring Briggs to submit to the board for approval. Whittell contended that since Briggs, a supervisor, is authorized to pay the bill, Whittell had no way of keeping the town books unless Briggs returned vouchers for each check issued. He said Briggs did not do this.

Lee of Venice calls "upon all citizens to observe this special period in honor of organized labor by displaying the Union Label, the Shop Card, the Store Card and the Service Button, and by patronizing the products and services of Union Labor. Merchants are identified by these time-honored emblems."

## EARL says...

Last Wednesday I was a guest of the Tourist Council, Region 8, of the State of Illinois. We were given a tour of Carlyle Reservoir, a place I have never visited before. The reservoir is a beautiful place, with many points of view and new developments, and then we came back in runabout boats and pontoons, taking in both the east and south end, back to our starting point for an evening fish and game picnic. I had a great time and took out of the same waters.

Here are a few facts you may wish to know: Many new ramp areas have been added, including a sailboat and fishing boat secluded harbor; in the Hazel Park area there are many sites for trailers & camping, as well as running water with fountains; 34 species of fish are stocked, including carp, crappie, large-mouth bass, blue gill, white perch, sauger, walleye, muskie, and white bass; crappie should be excellent this fall, especially in the creek beds of Allen, Coles, Boulder Ditch & others; there are many points and flooded islands which produce some fine catches from 1/2 to 1 1/2 million and 1/2 large-mouth bass stocked there; average bass this year were 3 lbs.; your quickest route (45 minutes), from Granite City is to take #270 past Highland to #143 and then down #127 to Keosauqua or Carlyle.

If you want an excellent map of the Reservoir, showing all access points and general area as of August this year, stop in at EARL's Discount Store your your free copy.

## Bakalis Campus Plan Says Tension Remains

Dr. Michael J. Bakalis on Thursday called for a state-wide conference to take positive action to prevent "senseless disorders" on college campuses this fall.

The Democratic nominee for state superintendent of public instruction urged an immediate meeting of student leaders, administrators, faculty, state officials and community leaders to open meaningful dialogue and outline the limits of reasonable dissent.

"I have traveled to universities across the state and listened to teachers, administrators and students; they tell me there is still great tension on our campuses. This fact is made even more real by the tragic bombing at the University of Wisconsin," Bakalis said.

"We all realize this tension is exploited by a small number of radical students. The majority are responsible individuals who value a good education."

### Participate in Decisions

Bakalis said this responsible majority must be included in the decision-making process. "Their participation will erode the appeal of the destructive radical movement."

Bakalis told a Rockford news conference of a 14-point program he has proposed after studying problems presented by administrators, faculty and students on state campuses. The program included:

1. The scope and limits of dissent must be defined for the entire university community.
2. Students and faculty must be given the opportunity to work for political causes, but they cannot be allowed to politicize the universities.
3. The rights of the majority cannot be jeopardized by students and faculty who interrupt the teaching and research functions of the universities. Violence and criminal actions are massive contradictions in institutions which have as their purpose the use of reason. Disciplinary actions by appropriate university bodies should be taken to terminate such activity.

### Decentralized Functions

4. Functions of the university must be decentralized in order to provide a more responsible administration.
5. Decision-making must be opened to faculty and students. Decisions involving curriculum and governing the university—even down to the department level—should include faculty and student participation on either an advisory or voting basis.

6. Universities must revamp their curriculum goals so they reflect not only the accumulation of past knowledge but are also relevant to the student's place in the community.
7. Within the university, the reward system must be revised so that recognition is granted for teaching effectiveness, rather than solely for research and scholarship.

8. The office of superintendent of public instruction, in connection with the business community, should enact a program to inform young people of the responsible positions available in their community which do not require a college degree.
9. The community college system should be at the forefront of career and vocational programs and their course offerings should be increased by at least 50%.

10. The state, in conjunction with the superintendent's office, should sponsor summer institutes designed to advise college professors of the newest techniques in teaching, as is done by other professions to

familiarize their membership with new methods.

11. The Illinois Board of Higher Education should re-evaluate the state master plan for higher education and give new emphasis to undergraduate programs.

### No More 'Mass' Schools

12. The state should not construct any more "mass institutions" with 20,000 to 25,000 students. The need is for small colleges which can better offer personalized instruction.

13. The superintendent's office should institute a statewide public information program to familiarize Illinois citizens with changes in higher education and its scope and purpose.

14. The superintendent should act as an "ombudsman for education" and personally visit colleges and universities as well as the state so he will be attuned to the problems of each campus.

## Union Heads to Brief Labor on '70 UF Campaign

The importance of this year's United Fund campaign to members of organized labor will be emphasized by drive officials at a special meeting set for 7:30 p.m. Thursday at the Tri-City Labor Temple, 2044a State street.

Invitations to attend the briefing have been issued to leaders of industrial unions at area plants, according to Ed Boyer, John Bennett and George Becker, co-chairmen of the Industrial Employees Division in the Tri-Cities United Fund's 1970 fund-raising drive.

A buffet lunch will be served and those attending the session may invite additional guests, the co-chairmen announced.

Primary objective of the meeting will be to answer questions related to the 1970 campaign. Boyer said this week. An explanation of various services offered by UF agencies to union members and other Quad-Cityans will be provided by several United Fund drive officials, including Thomas F. Griffin, Sub-District director of the United Steelworkers of America, AFL-CIO, who is serving as co-chairman of this year's UF campaign.

Among other drive leaders expected to participate in Thursday night's program are Robert T. McCormick, AFL-CIO Community Services director, and Attorney Leo Konten, co-chairman of the second annual United Fund "Fun Fair," Oct. 3 and 4 at Wilson Park rink pavilion. The fair will initiate the 1970 UF campaign.

"We hope as many industrial union leaders as possible will take part in the meeting," Boyer said, stressing that union members interested in learning more about the United Fund program also are encouraged to attend.

"Services provided by various agencies will be explained and suggestions solicited in an effort to improve UF service to organized labor and the community as a whole," he added.

### Elderly to Be Heard At State-Wide Forums

Community forums at which elderly citizens will be invited to voice their problems, needs and aspirations will be held throughout the state the week of Sept. 20, according to Clarence Lipman, executive director of the Governor's Committee for Senior Citizens.

Lipman said the forum discussions and completed questionnaires will provide Illinois' million elderly a clear channel to the White House. "One individual's thought might well be the key to important new state and national programs," he added. Comments will be correlated at the state level and presented at the White House Conference on Aging in Washington, D. C., next year.

### ABOUT THIS QUESTION:

"A \$450,000 award to a Minnesota girl... \$1,000,000 verdict for a New York child... \$350,000 award for a swimming pool drowning... these are but a few of recent large liability awards. Does the Lueders Agency recommend a "one million dollar personal excess liability policy" to keep pace with today's liability risks?"

## Schneider-Reed Wedding Nuptials Held Saturday

First United Methodist Church, Godfrey, Ill., was the scene of the wedding Saturday evening of Miss Ellen Gayle Schneider and David Allan Reed.

The parents of the couple are Mr. and Mrs. Francis D. Schneider, 300 Bradley avenue, Granite City, and Mrs. William Beau-pain, and the late Ralph H. Reed sr., of Michigan City, Ind. Gladious and tinted blue pom-poms adorned the altar for the 7 o'clock ceremony performed by the Rev. William E. Leckrone, formerly of Granite City.

The bride wore an Empire style gown of white sorrento fashioned with a floor-length skirt and a circular train attached at the high waist. Alencon lace trimmed the long sleeves and the neck, and a band of lace and pearls adorned the train. The bride's hair was styled in a cascade of cymbidium orchids and white roses.

Stephanie Walter and Capt. Ralph H. Reed jr., a brother of the bridegroom, were the only attendants. Robert Wells, cousins of the bride, served as ushers.

Miss Walters was in a gown of blue crepe, Empire-style and sleeveless. It was trimmed with white embroidered lace along the high waist and back panels. A blue crepe and pearl de soie headpiece secured a short veil and her flowers were blue and white.

A reception was held in the church social rooms after the ceremony and the newlyweds left for Ohio, enroute to Boston, Mass., where they will reside. They will be at home after Labor Day.

The former Miss Schneider graduated from the Alton high school and received a B.S. degree from Denison University in Granville, Ohio. She is currently working for a Ph.D. in biochemistry at Harvard Medical school in Boston.

Mr. Reed attended Michigan City schools and graduated in 1968 from Michigan State University with a B.S. degree. He is now working toward an M.A. in geophysics at Indiana University. He has been employed by the Chevron Oil Co. in Denver, Mass., the past summer. He will continue his studies while working for a Ph.D. in geophysics at Massachusetts Institute of Technology this fall.

The bride's parents are Mr. and Mrs. Derwood Bono, 2545 Waterman avenue. Mr. Daniel's parents are Mr. and Mrs. Arthur P. Daniel of Decatur, Ill.

Rev. William Fester heard the vows of the couple at 2 o'clock and a reception was held afterward at Holiday Inn, Sunset Hills.

Arrangements of white summer flowers and greenery decorated the church altar.

The bride's gown was fashioned of white silk organza with a modified Empire bodice, a veiled neckline and a bishop's train.

The bride was trimmed with scattered lace appliques. A mantilla-type veil was also of lace and the bride carried a colonial bouquet of white pom-poms, daisies and baby breath.

Mr. Bono gave his daughter in marriage. Miss Zoeean Tatum, maid of honor, and Miss Sharon Bono, and Mrs. Kelly Grimm, sisters of the bride, bridesmaids, wore identical gowns of mint green saki cloth and Venice lace. Sleeveless, they were designed with high necks and Empire waists. The backs of the gowns had semi-fall panels accented with flat bows. They carried

colonial bouquets of yellow daisies and pom-poms.

For her daughter's wedding, Mrs. Bono selected a powder blue dress and coat ensemble with matching accessories.

Richard Daniel of Decatur, was best man for his brother-in-law, and Kelly Grimm, and William Bice served as groomsmen and ushers.

A program of wedding music was provided by Miss Eric Mills, vocalist, and Neil Segor, pianist. Miss Miller's song was "The Ring," "Wedding Prayer" and the Lord's Prayer.

A number of out-of-town guests, including several friends from the Decatur area, attended the wedding. The newlyweds are honeymooning at Tan-Tar-A, Lake of the Ozarks. When they return they will reside at 1670 El Tigre Terrace, Spanish Lake, Mo.

The ceremony was performed by Rev. Hugh Cassidy. Two large arrangements of white flowers in the chancel and nosegay candles on the altar provided the setting for the 7 o'clock service.

Escorted by her father, the bride was attired in a floor-length gown of Sati peau with a sweep train. The Empire bodice, with long sleeves and a dip neckline, was trimmed with scalloped Venice lace and motifs of lace. The train was edged with the same lace and a bouffant veil was secured with a headpiece of lace framing the bride's face. She carried a bouquet of white pom-poms and miniature carnations centered with a yellow orchid.

Mrs. Steven James was maid of honor. The bride's mother was a pink crepe dress with a pink lace coat. The bridegroom's mother appeared in a silver crepe dress with matching

## Exemption Filing Deadline Tuesday

Deadline for filing applications to qualify for Homestead Exemptions of \$1500 in real estate property valuations of homes owned by persons 65 or older is tomorrow, according to James Barton, Granite City township assessor, who said several application forms are still outstanding.

The exemptions are to be allowed against the 1970 real estate property values under a state law passed by the legislature in 1969. The exemptions at first were limited to elderly homeowners who owned the property jointly with their spouses and occupied the property.

The law was amended early this year in a special session of the General Assembly and extended to other categories of property owners 65 or older, including those who held an interest with others in residential property.

Barton's office said a large number of applications has been received under the extended exemption program. In addition, Barton said, some persons who qualified under the earlier law, but who had not applied for that exemption, brought in applications during the second exemption filing period that began in early August.

**Sustains Hand Injury**  
Gene Skaggs, 23, of 2713 Washington avenue, an employee of National Lead Co., was treated for a puncture wound of the left hand at St. Elizabeth Hospital at 4:15 p.m. Friday. He incurred the injury with a welding rod while working.

## J. H. McNally Heads Auditing at AMSTED

The local serviceman has returned to Granite City and plans to spend a brief holiday with his parents prior to resuming his studies toward a master's degree in linguistics and business administration at the University of Arizona at Tucson.

# Bubblemasters to Host Weekend Dive

The Bubblemasters Scuba Diving Club of Granite City will sponsor the 1970 Labor Day dive and spearfishing contests for clubs belonging to the St. Louis Area Scuba Association. Several hundred divers and their families regularly participate in the annual Labor Day weekend event.

The "Dive Bonanza" is scheduled to be held this year at the Pontiac Boat Dock on Bull Shoals Lake, Pontiac, Mo. Most divers are expected to gather in the area Friday evening, with competition starting at noon Saturday.

Local organizers of the dive report that a treasure hunt segment will get underway at noon on Saturday and continue until 6 p.m. A diving tank and protective underwater gear will be offered contestants as the top awards, among several other prizes.

Spearfishing contests, beginning at 7 a.m. Sunday, will conclude at 4 p.m. Prizes to be awarded divers spearing the largest fish include a regulator, speargun, fins, mask and depth gauge.

A special award will be presented the diver who clears the lake area of the largest number of bottles, contest officials said. A get-together is planned for all St. Louis area divers at the lake site on Saturday evening. The social event also will be hosted by the Bubblemasters Club.
